

Reflector Instructions

1. Turn TV on PC input mode
2. Launch Reflector from the computer
 - a. Start Menu- All Programs- Reflector- select Reflector
 - b. Reflector will be in the systems toolbar on the lower right of desktop

3. Double click the Home Screen button on the iPad
 - a. Swipe left to right to reveal the multitask bar

- b. Click the Airplay icon 
 - i. Select your computer based on your room number (be careful to select the correct computer number or you will be broadcasting your iPad to another monitor)
 - ii. Turn Mirroring On

- iii. Click the Home button to return to iPad Home Screen
4. Open any apps, internet browser, pictures, etc... from anywhere in your room
5. To Disable Mirroring Feature
 - a. Double click on the Home button
 - i. Turn Mirroring Off
 - ii. Click on Home button
 - b. Right click on Reflector icon (lower right toolbar) and Exit

All sounds should be mirrored through the computer and TV so there shouldn't be a need to plug the speaker cord into the iPad. If you encounter any sound issues with your computer, double click on the speaker icon (lower right toolbar)  and adjust the volume levels.
